Ms. Holland presented the overview of the Cape Fear Bicycle Plan. This plan encompasses the greater Cape Fear area and intended to highlight bicycle connectivity of communities and areas of interest throughout the region. It does not get down to the level of detail as to what type of changes need to be made to roadways, etc. Cape Fear RPO is the lead planning agency and Alta Planning + Design is the consultant for this plan. It will fit nicely with the Croatan Regional Bicycle + Trails Plan which was completed by the Down East RPO a few years ago.

Mr. Prinz explained what the BlueTOAD system is and how it will help the City to be able to better evaluate and adjust traffic in real time. It will also provide the ability to generate origin and destination studies which are typically quite expensive to complete. The City is currently conducting a pilot study on Western Blvd and Mr. Prinz gave a live demonstration of the system. He said if the system works well, we would like to expand it to include other parts of the network. At that time, the MPO will be asked to participate in the cost.
