INTRODUCTION

The Unified Planning Work Program (UPWP) outlines planning activities for the Jacksonville MPO during the fiscal year using funds provided by federal and state transportation agencies as well as the City of Jacksonville and Onslow County. The UPWP is adopted prior to the beginning of the fiscal year and serves as the program for coordinating MPO activities with the goal of developing an integrated program that addresses current and future mobility needs of our region. Many tasks contained within the UPWP are required by federal or state law and are ongoing. Some of these reoccurring tasks include conducting Transportation Advisory Committee (TAC) and Technical Coordinating Committee (TCC) meetings, maintaining a current Metropolitan Transportation Improvement Program, long-range transportation planning and implementing our Public Participation Plan. Other planning initiatives contained within the UPWP vary from year-to-year. For instance, the scope of special projects completed by the MPO to address specific areas of transportation concern (such as small area plans, modal plans or corridor studies) change on an annual basis. This document blends ongoing and year-to-year activities into a cohesive program that builds consensus among federal, state, and local stakeholders regarding MPO operations and budgetary needs.

Transportation Advisory Committee Members:

Mr. Robert Warden, Chairman, Jacksonville City Council
Mr. Paul Buchanan, Vice-Chairman, Onslow County Commission
Mr. Jack Bright, Onslow County Commission
Mr. Randy Thomas, Jacksonville City Council
Mr. Mike Alford, North Carolina Board of Transportation

Technical Coordinating Committee Members:

Mr. Ben Warren, Chairman, Planning and Development Director, Onslow County
Mr. Wally Hansen, Vice-Chairman, Public Services Director, City of Jacksonville
Mr. Ryan King, ~~Interim~~ Director of Planning and Inspections, City of Jacksonville
Mr. Ronald Massey, Deputy City Manager, City of Jacksonville
Ms. Sharon Russell, Deputy County Manager, Onslow County
Ms. Carol Hurst Long, Executive Director, Onslow United Transit System
Ms. Sheila Pierce Knight, Executive Director, Jacksonville-Onslow Economic Development
Ms. Karen Collette, Division 3 Engineer, NCDOT
Vacant, Jacksonville MPO Coordinator, NCDOT Transportation Planning Division

This UPWP has been developed in accordance with the Fixing America's Surface Transportation Act or FAST Act, which requires a planning process that is continuing, cooperative, and comprehensive for making transportation investment decisions in metropolitan areas. The FAST Act also encourages MPOs to consult with planning officials responsible for other types of planning activities affected by transportation, including areas pertaining to land development, environmental protection, economic development, etc. The Jacksonville MPO strives to maintain a cooperative relationship with all of our local planning partners by including them as members of our TCC. Understanding that transportation issues impact all of these areas of concern, MPO staff works to balance these needs throughout our planning process.

The FAST Act requires the metropolitan planning process to provide for consideration of projects and strategies that will:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and nonmotorized users;
3. Increase the security of the transportation system for motorized and nonmotorized users;
4. Increase the accessibility and mobility of people and freight;
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation; and
8. Emphasize the preservation of the existing transportation system; and
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
10. Enhance travel and tourism.

Each work element within the UPWP satisfies at least one of these ten factors. Further, planning activities associated with each work element emanate from and support the goals of the Jacksonville Metropolitan Planning Organization's 2040 Long Range Transportation Plan, which was adopted by the TAC in April 2015, **amended in March 8, 2018, and later amended on December 13, 2018.**

Citizen involvement is a vital component of FAST Act compliance. As such, resources and activities have been included in this UPWP to implement the Jacksonville MPO Public Participation Plan. As a component of our Public Participation Plan, the Jacksonville MPO website will be maintained on a regular basis to broadcast information on MPO activities and to encourage community involvement in the MPO process. The MPO will also proactively notify citizens of plans and activities on a regular basis through public notices, press releases, social media, and other commonly used media outlets and public presentations.

All MPO plans and programs comply with the public participation provisions of Title VI which states: "[n]o person in the United States shall, on grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance."

BUDGET SUMMARY

Revenue

Funding the Jacksonville MPO is a collaborative effort among federal, state and local transportation stakeholders. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) provide 80% of MPO operating funds, the North Carolina Department of Transportation (NCDOT) Public Transportation Division (PTD) provides 2% and local MPO member agencies (City of Jacksonville and Onslow County) provide 18%.

FHWA funds (commonly known as Section 104 PL) are administered by the NCDOT Transportation Planning Division (TPD) and require a 20% local match. Section 104 PL funding levels are based on FAST Act authorization. The North Carolina Section 104 PL funding apportionment is distributed to MPOs by the TPD through a population-based formula.

Fiscal Year 2019 Section 104 PL revenue summary:

FHWA (80%)	\$ 236,000
<u>Local (20%)</u>	<u>\$ 59,000</u>
Total	\$ 295,000

Metropolitan Planning Program funds from the FTA (commonly known as Section 5303) are intended to provide assistance to urbanized areas for planning and technical studies in support of public transportation services. The North Carolina Section 5303 funding apportionment is distributed to MPOs by the NCDOT PTD through a formula based on transit operating statistics. Section 5303 funds require a 10% local match, provided by the City of Jacksonville, and a 10% state match, provided by PTD. Section 5303 funding levels are also based on FAST Act authorization. Revenues for this work program reflect the Fiscal Year 2019 authorization from PTD.

Fiscal Year 2019 Section 5303 revenue summary:

Urbanized Area Formula Program funds from the FTA (commonly known as Section 5307) are intended to provide operating assistance to urbanized areas for providing public transportation services. For use in supporting transit planning initiatives, Section 5307 funds require a 10% local match, provided by the City of Jacksonville, and a 10% state match, provided by PTD. Section 5307 funding levels are also based on FAST Act authorization. Revenues for this work program reflect the Federal Fiscal Year 2019 authorization from FTA.
